I am 63 years and a cancer survivor. When I was diagnosed with breast cancer, I felt very distressed. But when I went to get treated under Dr Koppiker, he handled my anxieties so well that I could feel my stress go away. I felt relieved. Dr Koppiker and Laleh madam help me through this disease financially as well as emotionally.

2) MRS SWATI DIMBLE

My family and me had a hard time coping with the news of my breast cancer. When I came to Orchids clinic for treatment Dr Koppiker and Laleh madam offered my family and me with the mental and financial support that I needed. The treatment which included chemotherapy and surgery was done without any charges. I was really worried about the side effects of chemotherapy, but Dr koppiker and the staff of Prashanti helped me through my fears.

A very special thank you to Dr Koppiker and Laleh madam for their support.
We would like to THANK our Donors & Supporters

Warm Regards,
Ms. Laleh Busheri
