#### **1. Varsha Nitin Konghe**

I am Varsha Nitin Konghe, 35 year old and I would like to share a few words about the hospital and the team. I have been a breast cancer patient and I was operated by Dr. Koppiker in August 2019. Since, then I have been closely associated with the clinic and its team. Dr. Koppiker, I believe is a great personality. Dr. Deshmukh, who designed my chemotherapy treatment has also been a great doctor to me. George brother who is in charge of the day care at PCCM has been an excellent support with a lot of help, assistance from the other staff members. The team is very friendly and co-operative with everyone and they have helped me deal with this journey better than I thought I could.

We would like to ~~THANK~~ our  
Donors & Supporters
